

# FOUNDATIONS RECOVERY NETWORK EVENTS

*FRN Is an Established Leader in Behavioral Healthcare Events*

FRN  
conferences,  
webinars and  
professional  
lectures present  
numerous  
opportunities to  
advance one's  
education.

Foundations Recovery Network has hosted more than three dozen national conferences, earning a reputation as the leader in behavioral healthcare events. Conference attendees are given the opportunity to earn continuing education credits in their given disciplines while they learn valuable information from a wide range of expert-level speakers on a variety of topics pertaining to addiction and mental health treatment. But that isn't all; we host free webinars and periodically invite experts to present at our outpatient centers. With two annual conferences, monthly webinars and regular professional lectures—all offering the chance to earn CE credits—FRN provides continual opportunities for advancing one's professional education.

*Atlanta | Santa Monica | Memphis | Malibu  
Nashville | Palm Springs | San Francisco*

FRN has hosted  
more than three  
dozen national  
conferences.

Continuing education is an important part of any FRN event. At our conferences, attendees are given the opportunity to earn, on average, up to 21 hours of continuing education credits in their given disciplines. Conferences provide participants with the chance to network with other knowledgeable individuals and companies in the treatment field, acquire skills pertaining to complex co-occurring

mental health and substance abuse disorders, and discover innovative treatment approaches and advances in co-occurring disorders treatment. Participants complete an attendance/evaluation form in order to receive a certificate of completion. Those who are interested can find a list of licensing agencies for each conference on our events website, [FoundationsEvents.com](http://FoundationsEvents.com).

## ***Two Annual Conferences***

Foundations Recovery Network holds two major events annually: our spring conference, Innovations in Recovery, and our fall conference, Moments of Change. Innovations in Recovery takes place at the historic Hotel del Coronado in scenic San Diego. This conference is designed to keep treatment professionals on the leading edge of unique approaches and essential therapeutic skill sets. Several of its topics include process addiction treatment, intervention, trauma resolution and defining specific approaches for specialty populations.

Moments of Change is held in the fall each year at The Breakers Hotel in Palm Beach, Florida. This conference tackles a variety of topics related to integrated treatment, offering a full continuum approach to training. Intervention, psychological trauma, psychopharmacology and specialty populations are just some of the topics routinely addressed.

### ***About Foundations Recovery Network***

Foundations Recovery Network is recognized as the premier leader in integrated treatment for co-occurring addiction and mental health concerns. Our award-winning model combines evidence-based addiction treatment with innovative therapies for mental health to address co-occurring disorders effectively. Results demonstrate that FRN patients are more than twice as likely to maintain sobriety one year post-treatment as compared those who attend traditional programs.

### ***Webinars and Lectures***

Ongoing education is a priority to Foundations Recovery Network. Our educational webinar series offers experts a chance to promote effective treatment methods, educate peers and establish beneficial connections with

other professionals. Webinars occur monthly and are free to the public, with a CE credit available to qualified attendees. Our regular professional lecture series also offers CE credits, and these presentations take place at our outpatient centers across the country. These locally-attended events are often scheduled around lunchtime and offer a unique opportunity for professionals to network and learn more about a number of treatment topics.
