A TRADITION OF TREATMENT

Talbott Recovery's trusted legacy can be traced back to Dr. G. Douglas Talbott, one of history's strongest voices advocating for the recognition of alcoholism as a disease. A pioneer in educating physicians about substance abuse and in offering treatment programs for medical professionals, Dr. Talbott's innovative spirit was second only to his care for people. Today, it's our privilege to continue the tradition.

OUR SPECIALTY IS YOU

No two patients are the same, so no two treatment plans should be, either. At Talbott Recovery, each of our substance abuse programs is designed to meet a specific need. Whether you are a young adult, established professional or somewhere in between, we have a program to address your unique goals with specialized care. Everything we do is to help you find healing and develop the tools needed to maintain long-term recovery.

A TRUSTED APPROACH

With an evidence-based approach to integrated treatment, Talbott Recovery is dedicated to helping patients make an educated recovery decision they can trust. We offer a comprehensive 72-hour assessment for those who need that level of detail. A treatment plan is then created, including group therapy and a wide range of other therapeutic techniques customized to your needs. We also have specialty programs for young adults, licensed professionals and pilots.

WHAT TO EXPECT

Because we're committed to comprehensive care for both substance use and underlying mental health conditions, treatment is tailored to each patient's needs, accommodating DBT, trauma, sexual issues, grief and anger. We also emphasize family healing (including family therapy and family workshops) and match patients with accountability partners to help them navigate the recovery journey. From our unique independent housing to the compassionate nature of our staff, your healing is in good hands.

OUR TEAM

Our staff consists of trusted, licensed master's-level therapists with expertise in treating addiction and associated psychological problems. Carrying the legacy of Dr. Talbott, our team is dedicated to providing the highest level of quality care. Guiding patients through every step of the treatment process, our compassionate staff can be trusted to empower individuals to rediscover their best selves.

THE FRN DIFFERENCE

Talbott Recovery is part of Foundations Recovery Network. Our programs have been cited as the gold standard in the behavioral health industry and classified in the top five percent of treatment programs, according to the Dartmouth Psychiatric Research Center. FRN provides a full scope of services and levels of care for those in need of treatment. Find out more at FoundationsRecoveryNetwork.com.
